

Program

1st International
young researchers
Conference on
Invasive Species

Vigo

May 10, 2021

PROGRAMA | PROGRAM

Cerimonia de inauguración | Ceremonia de apertura | Opening ceremony

13:00 h	Gallardo Medina, M	Dean of the Facultade de Bioloxía – Universidade de Vigo. Conference presentation.
13:10 h	Rodríguez Rajo, J	Director of the Departament Bioloxía Vexetal e Ciencia do Solo. Conference presentation.
13:20 h	González Rodríguez, L	Organizing Committee Conference launch.

Plenaria 1 | Keynote 1

13:30 h	Rodríguez Parra, J	Challenges facing habitat conservation: alien invasive plants coming to stay
---------	---------------------------	--

Presentación Oral | Oral Presentations

13:45 h	Benavides, S	Stakeholders' networks for the management of alien invasive species in protected areas Universidad de Concepción - Chile
14:00 h	Celi Iglesias, F	Control mechanisms of <i>Carpobrotus edulis</i> in an anthropic coastal ecosystem. Universidade de Santiago de Compostela - Spain
14:15 h	Feans, L	The battle for the survival of the white snout Universidade de Vigo - Spain
14:30 h	López-Núñez, FA	The use of ecological interaction networks to evaluate target and non-target effects of <i>Trichilogaster acaciaelongifoliae</i> in Portugal Universidade de Coimbra - Portugal

14:45 h

Discusión | Discussion

15:15 h

Intermedio | Intermission

Presentación Oral | Oral Presentations

- 16:15 h **Pérez-Diz, M** Understanding how characteristics of invaded habitats influence the performance of invasive *Carpobrotus edulis*
Universidade de Vigo - Spain
- 16:30 h **Silva Magalhães LC** The influence of *Artocarpus heterophyllus* (jackfruit) on Brazilian Amazon native species
Amazon State University
- 16:45 h **Ureña M.** Epibionts and parasites of crayfish (Decapoda: Astacidea) of Asturias (North of Spain)
Universidad de Oviedo - Spain
- 17:00 h **Lueje , YR** Milestones in Asian hornet (*Vespa velutina*) trapping programmes: a case of denialism or disinformation in invasion management?
Universidade da Coruña - Spain

17:15 h

Discusión | Discussion

Plenaria 2 | Keynote 2

- 17:45 h **Novoa Pérez, A.** Implications of public knowledge and perceptions for biological invasions

Presentacións de carteis | Presentación de pósters | Poster Presentations

- 18:00 h **Andújar Porto, E** Acacias invasion on Monte Pedroso – Santiago, Spain
Universidade de Santiago de Compostela - Spain
- Comesaña, J** *Azolla filiculoides*, the green mantle that invades the Miño
Universidade de Vigo – Spain
- Fernández, B.V** *Tradescantia fluminensis*: a green carpet on the river bank of Sar River
Universidade de Santiago de Compostela - Spain
- Fuentes-Lillo E** Anthropogenic factors overrule local abiotic variables in determining non-native plant
University of Antwerp – Belgium
- Lagoa Núñez, A** Management of “augustinegrass” (*Stenotaphrum secundatum*) in the Punta Balea natural area (Cangas, Pontevedra, Spain)
Universidade de Vigo – Spain

Marcos-Pacheco, L	Invasion by <i>Helychrisum petiolare</i> in the Tower of Hercules of A Coruña Universidade da Coruña - Spain
Martínez-Veiga, E	<i>Drosanthemum floribundum</i> a small potential invader Universidade da Coruña - Spain
Rodríguez, S	Habitat and stress in the invasive process: <i>Carpobrotus edulis</i> Universidade de Vigo – Spain
Rodríguez-Adesso B	What you need to know to be a superplant Universidade de Vigo – Spain
Vásquez-Valderrama, M	Invasive woody legumes: climatic range differences and functional traits Universidad de Concepción - Chile

Discusión | Discussion

Peche | Clausura | Closing ceremony

19:00 h

Reigosa Roger, MJ

Rector of the Universidade de Vigo

Institute of Botany of the Czech Academy of Sciences

Dpto. Biología Vegetal e Ciencia do Solo

Plant Ecophysiology | Universidade de Vigo

Universidade de Vigo
